**Subject:** Phoenix Area DWTSAs projects and HAMP IA closeout

Hello Eric,

I hope everything is well. I wanted to touch base with you about a few things. If you get a chance, please give me a call.

We plan to send a letter to the Hopi Tribe regarding the HAMP IA closeout and I wanted to confirm with you that IHS supports our recommendation for developing HAMP-related smaller scope projects that can be funded in our upcoming DWTSAs 2018 funding cycle.

I also wanted to touch base on FY17 DWTSAs projects for the Phoenix Area. We have not received our funding yet but we expect to get it within the next month. Since there will be a tight turn around to get these funding packages out the door, I wanted to give you a heads up about the projects that we plan to fund and some that we may be able to fund provided we receive some de-obligated funds back to the region later this summer. For all of these projects, we would still like to see a fee justification for PTS and engineering fees. We will also need a project summary for each.

Likely Phoenix Area Drinking Water projects that EPA will fund with FY17 funding:

- 1) Cost increase for PH 15-U76 – In order to fund this, we will need an amended project summary describing the cost overrun and revised budget
- 2) San Carlos Apache Bylas GWUDI Study – please prepare fee justification
- 3) CRIT Chlorination System – please prepare fee justification
- 4) Quechan Tribe – We will most likely be able to fund both the chlorination and iron and manganese removal projects. Please prepare a fee justification for the combined project.
- 5) WMAT Cross Connection Elimination Phase 3 - please prepare fee justification
- 6) WMAT Miner Flat Well Meter Vaults- please prepare fee justification
- 7) WMAT East Fork Water Storage Planning Project- please prepare fee justification

Funding for these project is likely but won't be confirmed until later this summer.

- 8) WMAT Carrizo well PER
- 9) WMAT Miner Flat Pumpouse upgrades
- 10) WMAT Storage Tank Assessment

Let me know if you have questions about these. If you have a chance to connect by phone that would be great. I'm in the office today (May 25<sup>th</sup>) but will be out of the office May 26-30<sup>th</sup>, returning on the 31<sup>st</sup>.

Thanks,

Emmanuelle
